MEMORANDUM

Stormwater Quality Section

Date: February 22, 2008

To: ACHD's Design Consultants

From: Jason Korn – Storm Water Quality Specialist

Subject: Construction General Permit Compliance – US EPA SWPPP Template

EPA has developed a Storm Water Pollution Prevention Plan (SWPPP) template. There is a link available from the ACHD website, <http://www.achd.ada.id.us/Departments/PP/Files/> to the EPA website where it is located, or you may follow the direct link from this memo, http://www.epa.gov/npdes/pubs/sw_swppp_template_unauthstates.doc. Please use this SWPPP template on all ACHD projects requiring permit coverage under the Construction General Permit that do not qualify for the Erosivity Waiver.

If you have questions as you use the template, please direct your questions to me at 387-6264 or jkorn@achd.ada.id.us. For consistency on ACHD projects, I will get the answer from EPA as needed.

Cc: Colin Farr, Sally Goodell
